AWESOME! Love the pick they chose, as well! We should be popping up on [INSIDER Food](#) and [Food Envy](#) in the next few weeks as well, which have over 10million fans between them all around the world!

These people flew in from London to see us after watching our series. They were meeting a family member in the US....but had that person meet them at the fish market, which meant traveling from their home in OREGON to us! They were excited to meet Tommy while he was helping filet some fresh Blue Fin that had just come in!
